# GREEN BOOK

fiscal year 2024

DOWNTOWN EDITION

WE ARE WASHINGTON  
DC GOVERNMENT OF THE DISTRICT OF COLUMBIA  
MURIEL BOWSER, MAYOR

The Small Business Opportunity Guide, affectionately known as the “DC Green Book,” is a valuable resource and a testament to the commitment of the District to support local entrepreneurs and small business owners. This comprehensive guide, with its rich history, has played a pivotal role in the growth and success of small businesses in the nation’s capital.

The DC Green Book owes its existence to the visionary leadership of Mayor Muriel Bowser, who recognized the vital role that small businesses play in fostering economic growth and creating job opportunities in the District of Columbia. In her tenure as Mayor, she made it a priority to empower local entrepreneurs and ensure they have the necessary tools and information to thrive in a competitive business environment.

Supported by the Department of Small and Local Business Development (DSLBD), the DC Green Book was created to serve as a one-stop resource for small business owners, startups, and aspiring entrepreneurs in the District of Columbia. DSLBD, under Mayor Bowser’s guidance, has played a crucial role in nurturing the growth of small businesses, promoting economic inclusion, and supporting the vibrant entrepreneurial ecosystem of the city.

# MURIEL BOWSER'S SUPPORT FOR SMALL BUSINESSES IN DC HAS MANIFESTED IN VARIOUS INITIATIVES AND POLICIES OVER THE YEARS.

**January 2015:** Muriel Bowser is inaugurated as the seventh Mayor of the District of Columbia. From the outset, she expresses her commitment to fostering a supportive environment for small businesses.

**April 2015:** Mayor Bowser established the "Green Team," a dedicated group within the Office of the Deputy Mayor for Greater Economic Opportunity (DMGEO) to focus on local economic development and small business support.

**June 2016:** The Department of Small and Local Business Development (DSLBD), under the leadership of Mayor Bowser, launches the DC Small Business Toolkit, an online resource offering information, guidance, and tools for small business owners and entrepreneurs.

**November 2016:** Mayor Bowser introduces the "Made in DC" program, an initiative aimed at promoting and supporting local manufacturers and makers, further bolstering the local economy.

**December 2017:** Under Mayor Bowser's leadership, the DC Green Book, officially known as the "Small Business Opportunity Guide," is introduced as a comprehensive resource to help local businesses navigate the complexities of starting, operating, and expanding their enterprises in the District.

**June 2018:** Mayor Bowser announces the launch of "Great Streets," a program designed to provide financial support and resources to businesses located on commercial corridors in underserved neighborhoods.

**November 2019:** The "DC Tech Incentives" program is introduced to incentivize tech companies to locate, expand, or create tech-related jobs in the District, fostering innovation and job growth within the local tech industry.

**January 2020:** Mayor Bowser unveils the "Small Business Resiliency Fund" to provide financial assistance to local small businesses adversely affected by the COVID-19 pandemic.

**June 2020:** The Bowser Administration establishes the "Streeteries Program," allowing restaurants and retailers to expand their outdoor dining and retail space during the pandemic to help them adapt to changing circumstances.

**April 2021:** Mayor Bowser launches the "DC Main Streets Relief Fund," offering grants to small businesses in designated Main Streets corridors impacted by the pandemic.

**September 2021:** Under Mayor Bowser's leadership, DSLBD holds the annual "DC Small Business Week," featuring events and resources dedicated to recognizing and supporting the contributions of small businesses to the District's economy.

**March 2022:** The DC administration exceeds its initial spending goal, surpassing \$1.1 billion in investments, a testament to their dedication to driving economic growth and fostering a thriving and inclusive community.

**December 2022:** Mayor Bowser's announcement of the FY23 Equity Edition of the Green Book underscores her administration's unwavering commitment to advancing equity and supporting the growth of small businesses in the District.

**December 2023:** Mayor Bowser's announcement of a record-breaking spending goal of \$1.2 billion on Small Business Enterprises (SBEs) exemplifies her resolute commitment to retaining and reinvesting local dollars within the community, strengthening the city's economic foundation.

# Muriel Bowser

Mayor, Washington, DC

Dear Small Business Community:

We launched the first Green Book in 2015 as a tool to better leverage DC Government’s procurement power and to give more Washingtonians a fair shot. When we are intentional about working with local businesses, we keep DC dollars in DC; we also help businesses expand, and when they expand, they train and hire more DC residents. When local businesses hire more DC residents, those residents can support their families and reinvest that money back into our community. All of that adds up to a fair shot for more Washingtonians.

When we released our first Green Book, our spending goal was modest – we set a goal to spend \$317 million in Fiscal Year 2016 with DC’s small and local business community. Each year, as we hit and surpassed our goals, we pushed ourselves to go bigger. With the release of last year’s Green Book, we also announced our most ambitious spending goal to date – \$1.16 billion. This year, we are building on that and aiming even higher: \$1.2 billion. Many of the opportunities in this book will get us to that goal. You will find procurement opportunities across DC Government and with our regional partners such as Pepco, Washington Gas, DC Water, the Metropolitan Washington Airports Authority, and the Washington Metropolitan Transit Authority.

Investments in small businesses fuel our economy, and in turn, drive DC’s Comeback. Whether it is building housing downtown, modernizing infrastructure across all eight wards, or creating jobs for DC residents, small and local businesses will continue to be at the center of our work to build a stronger DC.

Thank you for doing business in DC, hiring DC residents, and going after the opportunities listed in this Green Book. Together, we will build on the resiliency and vibrancy of our city and create more opportunities for our residents and neighborhoods.

Sincerely,

Muriel Bowser  
Mayor

# Nina Albert

Acting Deputy Mayor for Planning and Economic Development

To DC's Small Business Community,

We know that DC is ready for a comeback! The Bowser Administration and the Office of the Deputy Mayor for Planning and Economic Development (DMPED) are committed to supporting businesses and entrepreneurs to succeed, grow, and prosper here in the nation's capital.

We are particularly focused on empowering the District's Small Business Enterprises because they create jobs for our residents, they are a source of innovation and creativity, and they deliver the goods, services, and experiences that keep our neighborhoods and city thriving.

Through targeted programs and grant opportunities created through Mayor Bowser's budget investments, DMPED is excited to offer the following capital to support the District's small business community:

- Great Streets Retail Small Business Grant Program to support retail and small businesses in eligible corridors.
- Locally Made Manufacturing Grant Program to bolster companies making products in Washington, DC.
- Inclusive Innovation Equity Impact Fund to provide access for businesses that historically have not received early-stage funding through conventional financing.
- Commercial Property Acquisition Fund to help small businesses purchase property.

- Retail Recovery Grant Program to rejuvenate downtown businesses that are expanding into previously vacant spaces.
- DC Anchor Partnership to increase procurement spending by anchor institutions with Minority Business Enterprises.

To learn more about how you might qualify for these programs, and to get connected to other funding opportunities, visit [ObviouslyDC.com](https://www.obviouslydc.com).

We are grateful to each of you for your contributions to our city and for helping to make DC the best city in the world.

Sincerely,

Nina Albert

Acting Deputy Mayor for Planning and Economic Development

## Rosemary Suggs Evans

Interim Director, DSLBD

Dear Small Business Community,

The DC Green Book was a groundbreaking resource and a symbolic testament when Mayor Bowser introduced it in 2016 to her Administration's wholehearted commitment to our District's flourishing small business landscape. With each passing year, through the help of the DC Department of Small and Local Business Development (DSLBD) working in close collaboration with our sister agencies, we continue to demonstrate how government investments in District-based businesses yield positive impacts and create a momentum that leads us to the evolution of our District.

In commemorating past years' achievements, we are honored to present the ninth annual Small Business Enterprise (SBE) Opportunity Guide, affectionately known as the DC Green Book. As we embark on a new fiscal year brimming with possibilities for small businesses, I am thrilled to share updates on our unwavering dedication to fostering the growth and success of our small and local business community.

As well as highlighting upcoming procurement opportunities with the District, we are proud to state that the District surpassed our \$1.1 billion spend goal by spending a remarkable \$1.18 billion with SBEs in fiscal year 2023. This is a testament to the unwavering dedication of Mayor Bowser and the steadfast commitment of the entire DC community to uplift and champion our small businesses.

As a global destination with over 70,000 small businesses, we know your success is closely linked to the community's support. That is why Mayor Bowser has pledged to increase the 2023 spend goal in FY24 to \$1.2 billion. By keeping local dollars within our community, we are working towards advancing equity and fostering economic growth that benefits all. Under her guidance, what was once considered impossible has become the baseline for our procurement goals. The Mayor's commitment to contracting with local businesses is unwavering, and we applaud her for her support of our SBE community.

To continue our support of the SBE community, one of DSLBD's top priorities is to continue to advocate for comprehensive reforms to the Certified Business Enterprise (CBE) law to align it more closely with its intended purpose of being a program that continues to support ease of doing business and uplifting our bona fide local businesses.

And while we continue to push for statutory reforms, I am delighted to inform you that DSLBD took great efforts to update its regulations so that businesses have a greater sense of how we implement the current CBE laws. These updates reflect our commitment to creating a fair and equitable contracting environment for businesses like yours because we are dedicated to enhancing transparency, accountability, and opportunities for our local businesses, and these regulations are a significant step in that direction.

I also sincerely thank the dedicated team at DSLBD. Their unwavering commitment and diligence in compliance and enforcement have enabled the District to monitor and track our small business expenditures effectively. Thanks to their hard work, we have overcome obstacles, celebrated accomplishments, and paved the way toward a brighter future for our small business community. I am genuinely grateful for their efforts and the impact they have made.

We are excited to begin this new year of opportunities, filled with Mayor Bowser's unwavering support and the promise of the DC Comeback Plan. Our collective journey towards economic growth and equity continues, and together, we will make it a reality.

With an unwavering commitment to your success,

Rosemary Suggs Evans  
Interim Director, DSLBD

# Kenyan R. McDuffie

Committee on Business and Economic Development, Chair, Chair Pro Tempore

Dear Small Business Stakeholder,

It is an honor to support local small businesses and entrepreneurs in my role as chair of the D.C. Council's Committee on Business and Economic Development. Our committee is responsible for matters concerning small local business development policy and fosters inclusive development and smart investment for thoughtful and efficient oversight of this sector's leadership. Small and local businesses are engines of our local economy and play a vital role in the economic health of the District.

The release of the Ninth Annual Small Business Grant Enterprise Opportunity Guide (Green Book) represents an important tool that can assist you in accessing opportunities in the District government. We have seen great strides taken in the last decade to remove barriers and make contracting opportunities more accessible to our local small businesses. Yet, there is still more we can do towards increasing inclusive economic development across our eight wards.

This past year, we've seen positive outcomes take shape from the creation of the commercial acquisition fund, a grant created to increase access to capital for small business owners seeking to purchase commercial property in the District. Visiting these growing businesses shows us the power of collaboration, investment in our people, and growing local entrepreneurship.

A critical aspect of our continued economic recovery is the ability for our women and minority entrepreneurs to have fair and tangible opportunities to play active roles in restoring the District's prosperity through our \$1 billion procurement portfolio. When small businesses succeed, the District succeeds. We must continue building an equity-driven economy for small business owners to thrive for years to come.

Sincerely,

A handwritten signature in blue ink, appearing to read 'K. R. McDuffie'. The signature is fluid and cursive, written over a white background.

# CBE TESTIMONIALS

## Stacie Whisonant

aIBETs

As a black woman and a service-connected disabled resident of Washington DC, my journey as a business owner has been both empowering and challenging. Washington DC has a vast amount of resources, and the personal touch I've experienced when collaborating with various agencies has been invaluable. Despite the complexities of navigating the District's regulatory maze, the unique advantages far outweigh the hurdles.

One of the most significant benefits of establishing my business in DC is the accessibility and favorability of the wagering license. Compared to other states, the process here is more affordable and conducive to entrepreneurship. This has not only facilitated the launch of my business but has also provided a stable foundation for growth and expansion.

Moreover, DC's commitment to diversity and inclusion has opened doors that might have remained closed elsewhere. Being in a city that not only recognizes but champions the value of having minority and disabled business owners in the marketplace has been a game-changer. The employees of the District are accessible and relatable.

I've been provided with mentorship, financial support, and community engagement, which have been instrumental in shaping my business strategies and operational models. For example, I've been a recipient of the Innov Loan Fund which is a mission-driven social lender that provides innovative and equitable business financing to DC-based businesses in industries that would not normally be able to qualify for federally backed loan funds. According to my DC-based lender, the direct quote was "The Innov Loan Fund is proud to support aIBETs with a business loan since they are in a space-gaming technology—that would otherwise not be eligible for funding from more traditional social enterprises"

For these reasons and more, Washington DC has been the ideal launchpad for my business venture, and I am looking forward to continuing to grow in the District.

## Karen Butts

K-Consulting Group, LLC

K-Consulting Group, LLC, is a small and local Certified Business Enterprise, a woman-owned minority business management firm, specializing in providing an array of business practice services for profit and nonprofit entities. Launched in 2008, KCG links strategies to the implementation and assisting of our client leaders in achieving their desired business goals by offering an interdisciplinary collaborative approach to meet long-term development of operations and capacity-building goals. Along with immediate funding and management priorities, our focus areas are business management, organizational development, proposal writing, and advisory services. KCG's results have helped our clients deliver best practices to core operations needed in a business to produce successful outcomes and bring value to their customers.

DSLBD and its CBE program have been great resources in the growth and development of our company over the past 16 years. We have been a certified CBE for nine years. Being part of the CBE program allows us to have access to many local procurement opportunities. These opportunities have been instrumental in our continued and steady revenue growth over the last nine years, especially during the difficult two years of COVID-19. DSLBD provides informative and educational training

resources, which have enabled us to be prepared for the ongoing changes in local regulations, requirements, opportunities and future business practices as a DC-owned small business. The staff at DSLBD have always been available and responsive to our needs and offer support in many other areas of business as well. It is very apparent that obtaining CBE certification has been an excellent business decision for our company and one that we highly recommend to the clients we serve.

Thank you, DSLBD, you believe and understand and know that supporting and promoting our local businesses are essential to the growth and development of our communities. We thank Mayor Bowser and her entire cabinet for supporting the great work that DSLBD is doing—providing local business owners through their continued guidance and leadership. DSLBD is working diligently to ensure that the District of Columbia local businesses are afforded a fair opportunity to grow.

## Kiel Chesley

NJ3Q

I launched NJ3Q in September of 2021 – just after the height of the COVID-19 Pandemic. I had always wanted to start a business, and the downtime afforded to me during the pandemic lockdown offered the level of focus I needed to start the process. Having served in a business development capacity for two CBE firms, I immediately engaged with the team at DSLBD to obtain my CBE certification and seek additional guidance.

As suspected, the team at DSLBD exceeded my expectations and offered an unmatched level of support. DSLBD personnel assisted me in obtaining three DC Supply Schedules, marketing efforts to the U.S. Federal Government, proposal and grant reviews, and ongoing operational support. NJ3Q has prime contracts with various DC government agencies, the State of Maryland, WMATA, WSSC, and the Department of the Navy.

Further, in the first 12 months of operation, NJ3Q grossed over \$1M in total receipts as a government contractor and exceeded that amount for year two.

While the company is still in its relative infancy, and there is hesitation in announcing that we will continue to experience the success achieved in the first 24 months, I am confident to state that our feat would not have been possible without the support of our partners at DSLBD.

## Darren Peters

Peter Damon Group, LLC

We have operated Peter Damon Group, LLC since 2017. We are a strategic public affairs, business development, and event management consulting firm based in Washington, DC. Along with our range of high-level alliances, the PDG Team has a wealth of public and private sector relationships engaged to support the varied business interests of our clients.

Since we have engaged with DSLBD, we have become a Certified Business Enterprise (CBE) and have taken advantage of the overwhelming support we receive from them as well. We were recently awarded a contract to work with Events DC and have received numerous procurement opportunities from them. The CBE designation we have has also enabled us to develop many new relationships with various entities within the city.

We appreciate the friendly service we receive from the professional DSLBD staff with individuals who are seriously committed to seeing the success of small businesses like Peter Damon Group.

## Rob Thorne

Public Performance Management

“As a DC Native, I started Public Performance Management (PPM) over a decade ago, to serve my hometown—DC— first among all customers. As we provide products and services towards the IT, Operations and Energy Efficiency initiatives to over 55 District, federal, state and local government agencies, DSLBD and the Green Book have been instrumental in our growth from a small services company to a one-stop-shop for some of the District’s largest goals and objectives.

Through our partnership with DSLBD and use of the Green Book, we have been able to create an annual blueprint for scaling our business inside and outside of DC. The Green Book helps us understand the District’s demand for goods and services, and where spending is prioritized. We then work with our supply chain and professional service eco-system to fulfill demand with competitive pricing and top quality. The Green Book’s transparency, with prioritized budgets for procurement from CBEs, has been a significant driver for us to confidently invest in our capabilities and capacity, as it takes lead time to be ready for strategic opportunities. Specifically, the Green Book has helped us target IT consulting services towards agencies like DC Public Schools, Office of the Chief Technology Officer and Department of General Services, in addition to our IT full suite of hardware, infrastructure and applications. Similarly, our product and service portfolio for Operations and

Energy Efficiency has expanded rapidly alongside our technology business, at agencies like the Department of Buildings, and the Department of Licensing and Consumer Protection.

**DeWayne Holley**  
RizeUp Technology

RizeUp Technology Training is a staffing company that offers temporary support for the District of Columbia government, federal government and private industries. We are a Certified Business Enterprise (CBE), which allows RizeUp to secure contracts with the District of Columbia.

As we continue to navigate and explore opportunities through research and obtaining contracts, the Procurement Technical Assistance Center (PTAC) has played a pivotal role in assisting our staff through one-on-one sessions in targeting opportunities with the District of Columbia and federal government. Our staffing services have successfully assisted DC residents in securing both temporary and permanent positions with various DC government agencies. Our staffing services have covered a wide range, including roles such as Information Technology Support, Developers, Project Managers, Administrators and Media Production. One of our main focuses is assisting young adults in transitioning into the workforce—providing direction in securing thriving careers.

“RizeUp and Find Your Passion”

## Elijah Moses

Urban Equity Consulting Group

Urban Equity Consulting Group has had a remarkable and mutually rewarding experience working with the District of Columbia government and DSLBD. Since 2020, our journey as a CBE in the nation's capital has been nothing short of transformative. The DSLBD team was both engaging and thorough.

Our assertive approach to proposal development, continuously staying abreast of opportunities and working with DSLBD and the CBE community, has helped us to work with over 10 government agencies. We have offered project management, professional staff development, workforce, business and organizational development services to the DC government and several local businesses.

Over the years, we've been fortunate to secure several contracts with the DC government, thanks to our CBE status. Through the Office of Procurement (OCP), we also joined several Supply Schedules. These proposals and contracts have not only provided us with opportunities for growth but have also allowed us to make a positive impact on the local community and local hiring. All of our team members are DC residents. We've had the privilege of working on various projects, from community outreach initiatives to workforce development programs, that aim to uplift the District and its residents. We landed a significant contract with DCHR Center for Learning and Development to train DC government staff. The support and trust from the DC government have

played pivotal roles in our company's success.

One of the most valuable aspects of our collaboration with DSLBD has been the networking and educational events they organize. These events have been immensely beneficial, providing us with the chance to connect with other CBEs and government officials, exchange ideas, and explore potential partnerships.

We look forward to continued visionary leadership under Director Rosemary Suggs-Evans, who has always been an advocate of the CBE Community. Many blessings on her as she leads in her new calling and appointment.

### Carmen Fells Global Incite

Global Incite (GI) has always been deeply committed to environmental, social, and economic sustainability. The pandemic necessitated a shift in our focus from international development programs to less travel-intensive work, bringing our environmental and energy consulting services to the forefront. We initially primarily marketed to the federal government, leveraging our familiarity and prior experience with federal clients.

The transition posed challenges. However, it also opened doors for us to innovate in our marketing strategies and to expand our client base. Through APEX Accelerators (previously PTAC) Global Incite was connected with Senior Procurement Specialist Venessa Kadiri, who consistently provided crucial support and business advice over the years, including encouraging me to also market to DC government. Inspired by her advice, I began to search for DC government opportunities and, in November of 2020, Global Incite achieved DC Certified Business Enterprise (CBE) status.

Global Incite's CBE status provided opportunities to apply for and be awarded several DSLBD grants. These grants were instrumental in propelling the company forward, particularly the CBE Green Grant allowed us to work within one of our core competency areas of sustainable energy and assist other CBEs in securing green energy contracts. This opportunity to champion other small businesses, while focusing on sustainability, resonated deeply with both Global Incite's core values and my

personal passion and has by far proven to be the most fulfilling aspect of our efforts with DSLBD. It was also an honor to be acknowledged as the only company to win the CBE Green Grant twice. All of the grants awarded are a testament to DSLBD's devotion to our progression and that of small businesses in general and we are truly grateful!

We appreciate the relationships and opportunities that the DC government and DSLBD have fostered, which have been instrumental in our growth and have enriched our journey. As we move forward, Global Incite's dedication to excellence, efficiency, and sustainability remains. We eagerly anticipate future collaborations with the DC government and intend to utilize our expertise in environmental and energy consulting along with program management to deliver solutions and exceptional customer service, while also remaining focused on having a positive impact on the small business community.

My overall vision for Global Incite remains unwavering: to promote a sustainable and resilient future, one project at a time and I am confident that our continued relationship with DC government and DSLBD will help ensure that vision is realized!

# GUIDE OVERVIEW

## HOW TO USE THIS GUIDE

### GUIDE OVERVIEW

The Green Book – coupled with the online resource [greenbookdc.com](https://greenbookdc.com) – is designed to help Small Business Enterprise (SBE) business owners:

#### Understand the Government of District of Columbia's:

- **Goal for spending its Fiscal Year 2024 budget** with SBEs via agencies subject to monitoring (summary page 11; agency detail pages (42 to 130); and
- **Progress on spending its Fiscal Year 2024 budget** with SBEs subject to monitoring (summary page 11).

#### Learn How to Use the Data in this Guide and at [greenbookdc.com](https://greenbookdc.com) to:

- Understand the **types of products and services** sought by the DC Government;
- Locate **current and pending contract opportunities** for these products and services;
- Consider **whether to expand a business to compete** for contracts that request products/services similar to its current business model; and
- Connect with free, **in-depth contracting assistance** to help small and local businesses build their capacity to compete effectively for DC Government contracts.

### WHICH AGENCIES ARE INCLUDED IN THE GUIDE?

There are 90 Monitored Agencies included in this guide.

Monitored Agencies have budgets with expenditures that can be spent with SBEs and will be monitored to determine if they meet their annual SBE Spending Goal. Review the list of these agencies on pages 39 and 40, and their individual agency details on pages 41 to 130.

Non-monitored Agencies or Funds do not have an expendable budget and are not required to participate in the DC Government's SBE goal-setting process.

### WHAT ARE SMALL BUSINESS ENTERPRISES (SBES)?

This guide focuses on Small Business Enterprises (SBEs). SBE is a subcategory of the DC Government's Certified Business Enterprise (CBE) program that gives certified businesses a preference when bidding on DC Government contracts.

To be certified as an SBE, a business must demonstrate that they are local and receive the Local Business Enterprise (LBE) designation. Then, the business must demonstrate that it is independently owned, operated, and controlled; meets the U.S. Small Business Administration definition of a small business; and has not exceeded DSLBD thresholds for annualized gross receipts over the past three years.

The Summary of Agencies Monitored for FY24 SBE Spending (page 11) and individual agency pages (pages 41 to 130) of this guide contain the following information:

1. FY24 BUDGET Details
2. FY24 SBE Spending Goal & Calculation
3. FY24 Planned Acquisitions Highlights
4. Previous Fiscal Years' SBE Spending

## 1. FY24 BUDGET DETAILS

**Total Budget** is the Fiscal Year 2024 (FY24) Total Appropriated Monitored Budget, which includes operating and capital dollars. FY24 begins October 1, 2023 and ends September 30, 2024. FY24 BUDGET information published in this book is current as of December 1, 2023. For the most current data, please visit [greenbookdc.com](https://greenbookdc.com).

**Personnel & Fixed Costs** are the expenditures for agency staff salaries, utilities, rent, and other fixed costs that cannot be contracted out to SBEs. These costs are not subject to the SBE spending requirement. These are also called **Automatic Exclusions**.

**Expenditures that agencies proposed and DSLBD confirmed are not SBE eligible & Anticipated Transfers.** This amount is also referred to as **Special Exceptions** and comprises the types of expenditures listed below. During FY24, agencies may report that some of these funds are contracts for which SBEs may apply. DSLBD will update the agency's online record at [greenbookdc.com](https://greenbookdc.com).

**a) Anticipated Transfers** are funds that one agency will transfer to another agency for services. For example, the transfer of funds from an agency to the Office of Chief Technology Officer to provide technology upgrades.

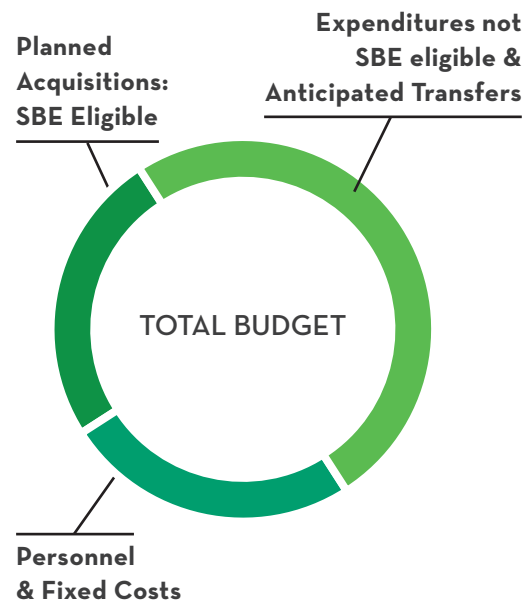

**b) Reasons to approve Special Exceptions** are outlined in 27 DCMR 830.6 and approved by the DSLBD Director, which may include:

- No SBEs are available to provide the product/service due to lack of availability, interest and/or business capacity;
- Local or federal law controlling the expenditure of the funds (such as Medicaid services);
- Proprietary products/services that are owned by another entity or require special licensure (such as LexisNexis subscription service); and

- Specialized services that require specific expertise unique to a particular agency (such as biologists to support watershed restoration efforts).

**c) Waivers:** District Government contracts exceeding \$250,000 require a 35 percent subcontracting set-aside with SBEs. Subcontracting requirements may be waived by the Department of Small and Local Business Development (DSLBD) if an agency submits an official waiver request to DSLBD justifying why the requirement cannot be met by SBEs.

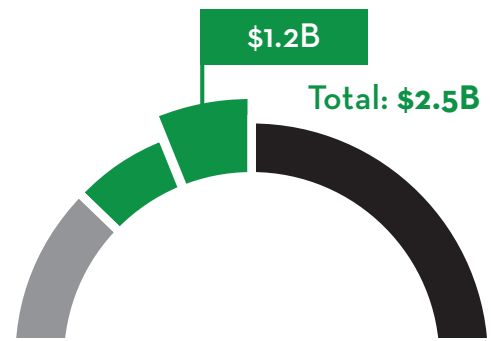

**Planned Acquisitions:** SBE Eligible, also referred to as an agency's **Expendable Budget**, is the amount of the agency budget remaining for purchasing products and services after subtracting the aforementioned Automatic Exclusions and Special Exceptions, and Anticipated Transfers. By law, agencies are required to spend 50 percent of their Expendable Budget with SBEs

Businesses are encouraged to review the detailed records for this budget category at [greenbookdc.com](https://greenbookdc.com) to identify potential areas in which to expand their business and pursue contract opportunities.

## 2. FY24 SBE SPENDING GOAL & CALCULATION

The FY24 SBE Spending Goal is the minimum amount that each DC government agency is required to spend with SBEs between October 1, 2023 and September 30, 2024. The goal is set by dividing the Expendable Budget in half (50%). Goals will be adjusted throughout the year based on budget changes and adjustments (ADJUSTED GOAL).

## 3. FY24 SBE SPENDING GOAL & CALCULATION

Annually, agencies report how they plan to spend their procurement dollars on various products and services. They update their forecasted spending plans throughout the year.

This guide highlights some of the Planned Acquisitions by category and includes the associated NIGP/commodity code. These highlighted examples may be of particular interest to SBEs because:

- in the past agencies indicated they could not find SBEs for the product/service; or
- these are products/services that SBEs could provide directly, via subcontracting with primes, teaming with other CBEs and/or building the business' capacity.

**FY24 Planned Acquisitions Highlights** data published in this book is current as of December 1, 2023. For the most current data, please visit [greenbookdc.com](https://greenbookdc.com).

## 4. PREVIOUS FISCAL YEARS' SBE SPENDING

The SBE Spending is the total amount of funds that an agency spent with SBEs. The amounts for FY20, FY21, and FY22 are final (audited and verified).

The FY23 Preliminary SBE Spending amounts included herein are based on transactions recorded to the Office of the Chief Financial Officer's System of Accounting Record (SOAR) as of November 2023. These expenditures are preliminary and unaudited, which are subject to change based on final adjustments and modifications to the District's accounting records in preparation for the District of Columbia 2023 Comprehensive Annual Financial Report (CAFR).

Agencies SBE spending amounts may vary year to year depending on several factors including:

- Priorities specific to a fiscal year;
- Overall budget increases and decreases, such as technology upgrades or other mission-critical procurements that may be funded in one fiscal year but not the next; and
- The source of the funds received may have a restricted use and is not available to SBEs.

**Goals will be adjusted throughout the year based on budget changes and adjustments.**

### Requirements Behind the SBE Goal Setting and Spending

To read the full text of the policy and legislation governing the SBE goal setting, agency spending requirements and the CBE program, visit [greenbookdc.com](https://greenbookdc.com) and click Review Agency SBE Requirements.

## WHY DO CERTAIN DSLBD DOCUMENTS REFERENCE CBE SPENDING GOALS?

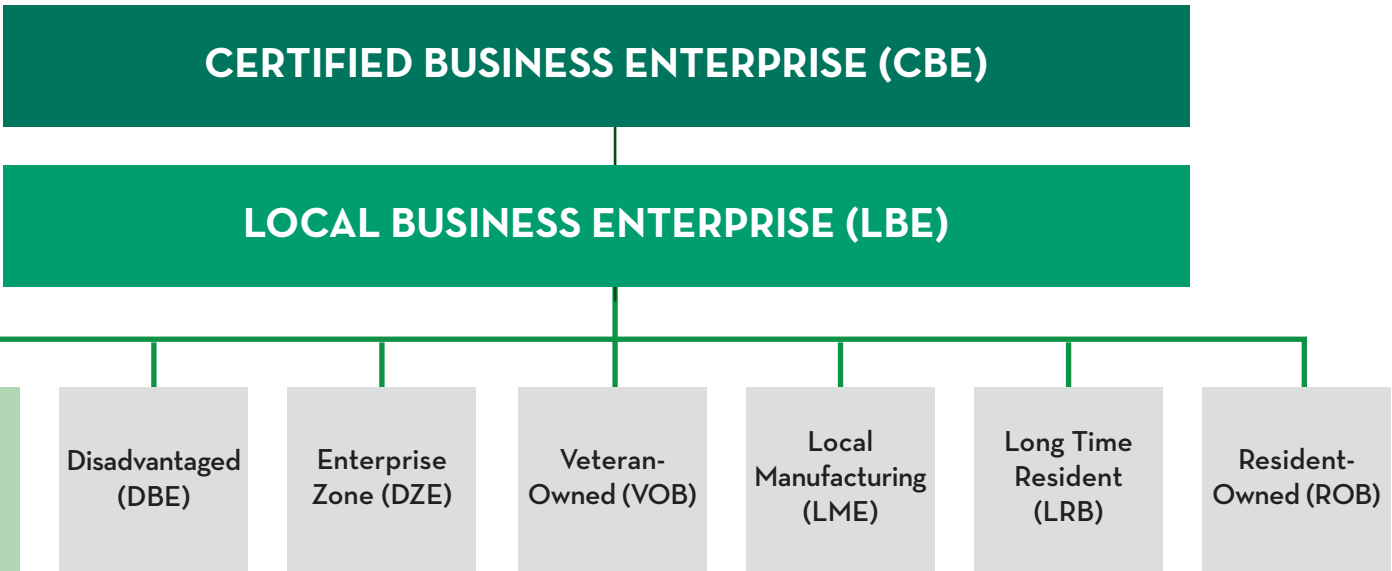

Prior to the 2014 Small and Certified Business Enterprise Development and Assistance Amendment Act, all CBEs received equal preference for District contracts and procurements. The 2014 act added priority to SBEs. Public recognition of the program has continued to follow the term CBE. While DSLBD has implemented the update in the law, rebranding of the spending goal to match the new priority will take time.

### WHAT IS A CBE?

- **Procurement Preference.** CBEs are registered companies with the Department of Small and Local Business Development (DSLBD) and receive preference in District Government contracting and procurement.
- **Certification Categories.** To become certified, a business must meet the requirements of an LBE, a Local Business Enterprise, by demonstrating the business is headquartered in the District and that more than fifty percent of employees, owners, assets or gross receipts reside in the District of Columbia.
- **Subcategory.** CBEs can apply for additional certifications to receive added preference in procurement, including Small, Disadvantaged, Resident-Owned, Longtime Resident, Enterprise Zone, Veteran-Owned, and Local Manufacturing.

### WHAT IS A SBE?

- **Procurement Preference.** SBEs are a CBE subcategory. District agencies monitored by DSLBD are subject to an annual SBE spending goal requirement, and SBEs receive preference within set-aside procurements.
- **Certification Requirements.** To be certified as an SBE, a business must demonstrate that they are: local; independently owned, operated, and controlled; meet the U.S. Small Business Administration definition of a small business; and have not exceeded DSLBD thresholds for annualized gross receipts over the past three years.
- **Agency Requirements.** While agencies have SBE spending requirements, if no SBEs are available to complete work, agencies must spend with CBEs.

## CONTRACTING ASSISTANCE

This guide is part of a larger suite of services that the District offers to connect SBEs to procurement opportunities.

### 1. FINDING CONTRACT OPPORTUNITIES USING GREENBOOKDC.COM

DSLBD is dedicated to maximizing SBE participation by linking existing SBEs to contracting opportunities. The Green Book DC website ([greenbookdc.com](https://greenbookdc.com)) is a comprehensive and robust undertaking by DSLBD to provide CBEs a one-stop shop for all contracting and procurement needs.

### 2. AVAILABLE ASSISTANCE TO HELP SBES COMPETE FOR CONTRACT OPPORTUNITIES

DSLBD's DC Procurement and Technical Assistance (DC PTAC) program offers free, in-depth contracting assistance to qualified DC businesses. Once SBEs meet DC PTAC requirements, they may work with PTAC contracting specialists to expand their business to identify and compete for local and federal contract opportunities.

**Requirements:** Must have a business plan, have a DUNS number, be a registered business with DCLP, and have past performance (government preferred). People often have the misconception that any business can work with PTAC, but they must meet the requirements.

Contact DC PTAC at 202.727.3900 or [dslbd.dc.gov/ptac](https://dslbd.dc.gov/ptac).

#### OCP OMBUDSMAN

The Office of Contracting and Procurement (OCP) Ombudsman provides contractors and subcontractors performing work or providing services under a District contract a fair, informal, impartial and confidential voice through which they may communicate their complaints and concerns regarding contracting and procurement. Contact OCP Ombudsman William Peter Teague (Pete) at 202.724.4197 or [William.Teague2@dc.gov](mailto:William.Teague2@dc.gov).

### 3. WORKSHEET

DSLBD created a worksheet (page 37) as a companion tool to help SBEs use this book and [greenbookdc.com](https://greenbookdc.com) to find and prepare for DC Government contracts.

# ADVISORY NEIGHBORHOOD COMMISSIONS

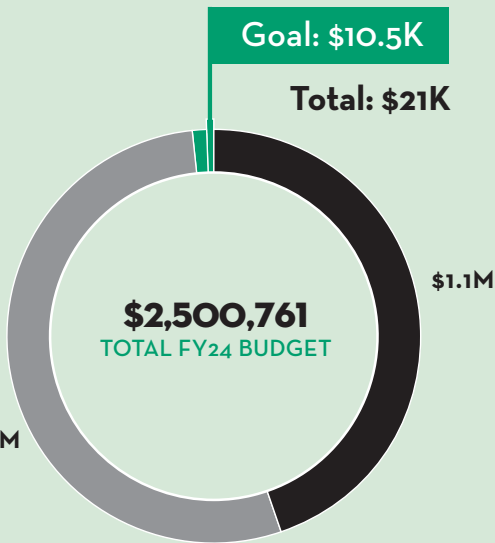

website: [anc.dc.gov](http://anc.dc.gov) | email: [oancc@dc.gov](mailto:oancc@dc.gov) | phone: 202.727.9945 | address: 1350 Pennsylvania Ave. NW, Suite 11, Washington, DC 20004

The mission of the Advisory Neighborhood Commissions (ANC) is to advise the District government on matters of public policy, including decisions regarding planning, streets, recreation, social service programs, health, safety, and sanitation in respective neighborhood areas. This mission, supported by the Office of ANCs in the Agency Management program, includes reviewing and making recommendations on zoning changes, variances, public improvements, licenses, and permits of significance for neighborhood planning and development.

## \$10,500

FY24 SPENDING GOAL

- Personnel and Fixed Costs (not subject to SBE spending goal)
- Expenditures that are not SBE eligible
- Planned Acquisitions: SBE Eligible (50% = Goal)

Review SBE goal calculation formula and agency budget details at [greenbookdc.com](http://greenbookdc.com).

### FY24 PLANNED ACQUISITIONS (SELECT HIGHLIGHTS)

This agency's FY24 Planned Acquisitions total approximately \$21,000, which may include potential opportunities for SBEs. Review all FY24 Planned Acquisitions at [greenbookdc.com](http://greenbookdc.com). New planned acquisitions only.

PRODUCT/SERVICE	NIPG CODES
-----------------	------------

This agency has no new planned acquisitions that have not already been awarded.

### POTENTIAL BUSINESS GROWTH OPPORTUNITIES

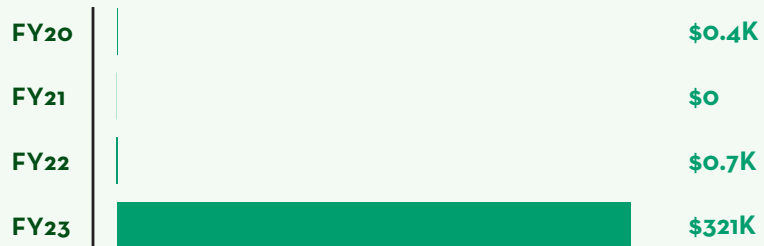

These are examples of "Expenditures that are not SBE eligible" (special exceptions depicted in the gray slice of the FY24 chart to the left) where contracts are currently in place or the agencies determined that SBE capacity was not available.

PRODUCT/SERVICE	TOTAL
-----------------	-------

There were no potential growth opportunities where CBEs were deemed not available/qualified as of the date this document was printed. Please visit [greenbookdc.com](http://greenbookdc.com) for more information.

### SPENDING WITH SBES

The Fiscal Year 2023 SBE Expenditures are based on transactions recorded to the Office of the Chief Financial Officer's System of Accounting Record (SOAR) as of November 1, 2023. These expenditures are preliminary and unaudited and are subject to change. To view the final audited amounts and additional details about FY20, FY21, FY22 and FY23 SBE spending, visit [greenbookdc.com](http://greenbookdc.com).

For definitions and details about the information on this page, please refer to pages 32-37. Visit the companion web site [greenbookdc.com](http://greenbookdc.com) for the most current data, reports and contracting assistance resources. Dollar figures displayed have been rounded accordingly.

# ALCOHOLIC BEVERAGE REGULATION ADMINISTRATION

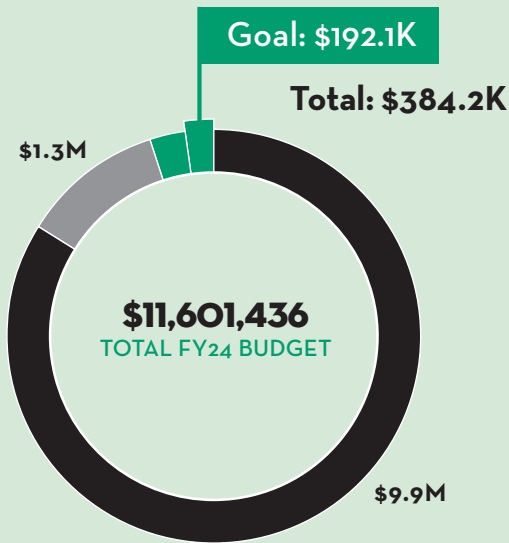

website: abra.dc.gov | email: abra@dc.gov | phone: 202.442.4423 | address: 2000 14th St. NW, Suite 400S, Washington, DC 20009

The mission of the Alcoholic Beverage Regulation Administration (ABRA) is to support the public's health, safety, and welfare through the control and regulation of the sale and distribution of alcoholic beverages.

## \$192,098

The Metropolitan Washington Airports Authority (Airports Authority) manages four key entities: Ronald Reagan Washington National Airport, Washington Dulles International Airport, the Dulles Toll Road, and construction of Metrorail Silver Line expansion to Dulles Airport and beyond through the Dulles Corridor Metrorail Project. The Airports Authority provides world-class travel options and plays a key role in generating new business, creating jobs to support the local economy, boosting economic development through supplier diversity, and promoting tourism. Additionally, the Airports Authority, through its business enterprises, contractors, and dependent industries, provides or supports nearly 400,000 jobs across the region, more than 100,000 of which are based in the District of Columbia, generating more than \$4.5 billion in annual labor income. Regionally, jobs provided or supported by the Airports Authority account for approximately \$15 billion in annual labor income, approximately \$3 billion in state and local taxes, and nearly \$21 billion in business revenue. Through the Office for Diversity, Inclusion and Social Impact, the Airports

Authority encourages the participation of DC-based businesses in its contracting opportunities by engaging in various strategic events, supplier development programs, and partnerships throughout the DC metropolitan area to promote the Airports Authority’s Small Business Programs, and ultimately increase DC-based firms’ participation in Airports Authority procurement opportunities. The Airports Authority SLBE Program provides opportunities to local small business firms without regard to race or sex. These SLBE firms are eligible for any Authority contract that requires SLBE participation. An SLBE is defined as a small business concern, which is organized for profit and located within a 100-mile radius of Washington DC’s Zero Mile Marker. The average annual gross receipts, based on the firm’s last three years of receipts, must not exceed the small business size standard established by the Authority for the services or goods that will be provided in an Authority contract. The receipts of all affiliates are counted in determining size.

As the primary energy provider in the District of Columbia, Pepco is committed to delivering safe, reliable, affordable, and sustainable energy to our customers, through numerous projects and initiatives, as well as the ongoing maintenance and upgrades made to the electric distribution system. Examples of key infrastructure projects include the District of Columbia Power Line Undergrounding (DC PLUG) initiative and the Capital Grid Project. These critical infrastructure projects contribute to the economic sustainability and growth of the District of Columbia, resulting in opportunities for local and diverse businesses.

The DC PLUG initiative is a partnership between the District and Pepco to improve the reliability and resiliency of the District of Columbia energy grid by placing select feeders underground in Wards 3, 4, 5, 7, and 8. The Task Force determined that improvements to the District of Columbia’s electric distribution system to enhance its resiliency and reduce power outages caused by storms would require new investments. Pepco and the District Department of Transportation (DDOT) have jointly hosted contractor forums, sponsored a DC PLUG Initiative Networking Event for contractors, and hosted a project schedule update webinar for contractors. Pepco and DDOT will continue to conduct one-on-one meetings with Certified Business Enterprises and attend local events to learn about the capacity and capability of the local contracting community.

The Capital Grid Project is an integrated solution that helps strengthen the Capital area energy grid over the long term, promoting enhanced reliability and resiliency. Through this project, we are continuing our purposeful work, delivering on our promise to provide safe and reliable energy to our customers, and acting on our commitment to continually driving our communities forward. The project includes an upgrade to three existing Pepco substations in the District and Maryland, construction of a new substation to serve an area in the District experiencing rapid growth and development, and the creation of a networked system by installing approximately 10 miles of underground transmission cable.

To get started on the work, Pepco partnered with construction firms designated as District of Columbia-based Certified Business Enterprises, spurring local economic development, and building on its commitment to diversity and workforce development.

Pepco will continue to engage local and diverse contractors regarding these and other opportunities that are available with the company.

Washington Gas is committed to supporting diversity, equity, and inclusion. We strive to establish enduring partnerships with a diverse range of suppliers who accurately reflect the communities we have proudly served for 175 years. By fostering sustainable relationships, we promote and uphold the values of diversity and inclusion in everything we do. We prioritize the inclusion and utilization of diverse suppliers, whether through direct partnerships or subcontracting opportunities.

In addition to driving regional growth, we support the enhancement of energy security, infrastructure, transportation, and economic resilience in the greater Washington area. A strong natural gas infrastructure is crucial to fulfilling those objectives through collaborations with both public and private entities. Washington Gas is firmly committed to fueling economic expansion while meeting the energy needs of the region.

Washington Gas is also committed to maintaining a robust Supplier Diversity program – one designed to provide opportunities for growth and development. Our commitment to supplier diversity as a key component of the company’s annual Corporate Value drivers can be found through the inclusion of diverse spend. This ensures accountability from the C-suite and throughout the entire organization, again emphasizing a commitment to promoting diversity and inclusion in our procurement practices.

The program actively encourages Prime Contractors to engage diverse suppliers. In fact, the utilization of diverse suppliers is integrated into the sourcing process. Washington Gas collaborates closely with Prime

Contractors to offer education, identify subcontracting opportunities, and monitor the progress of their diversity initiatives. By working hand-in-hand with Prime Contractors, Washington Gas ensures that diversity and inclusion remain at the forefront of our equitable business practices throughout the subcontracting process.

To measure progress, Washington Gas tracks the number of diverse suppliers within the company’s supply chain and monitors the percentage of contracts awarded to local and diverse businesses.

Washington Gas, through targeted outreach campaigns, actively engages diverse supplier organizations in an effort to directly reach diverse suppliers. Simply put, we meet suppliers where they are – sending personalized correspondence, hosting webinars/workshops, showcasing supplier registration portals on the company’s website, participating in diversity-focused events and other networking opportunities. These intentional touchpoints provide opportunities for Washington Gas to learn more about suppliers’ capabilities and assess their suitability.

Additionally, through training, resources, and mentorship programs, Washington Gas helps diverse suppliers enhance their capabilities, improve their competitiveness, and meet the company’s requirements.

By implementing these strategies and fostering a culture of inclusivity, Washington Gas has improved opportunities for diverse suppliers, driving economic growth, promoting diversity and inclusion, and contributing to a more equitable business landscape.

The Washington Metropolitan Area Transit Authority (WMATA or Metro) was created by an interstate compact in 1967 to plan, develop, build, finance, and operate a balanced regional transportation system in the national capital area. The Authority began building its rail system in 1969, acquired four regional bus systems in 1973, and began operating the first phase of Metrorail in 1976. Today, Metrorail serves 91 stations and has 118 miles of track. Metrobus serves the nation’s capital 24 hours a day, 7 days a week with 1,500 buses. Metrorail and Metrobus serve a population of 3.4 million within a 1,500-square-mile jurisdiction. Metro began its paratransit service, Metro-Access, in 1994; it provides about 1.5 million trips per year.

WMATA has five (5) socioeconomic programs and two (2) certification programs that support the prosperity of the local, small, minority- and women-owned business communities and strives to ensure opportunities are marketed, published, and meet regulatory requirements.

address: 4100 Garden City Drive, Hyattsville, MD 20785

- Disadvantaged Business Enterprise Program (DBE) – Federally Mandated by 49 CFR 26
- Small Business Enterprise Program (SBE) – Federally Mandated by 49 CFR 26.39
- Minority Business Enterprise Program (MBE) – New program non-federal
- Small Business Program (SBP) – New program non-federal
- Micro-Business Program (MBP) – New program non-federal
- WMATA Certification Oversight Committee (WCOC) (MBE Program)
- District of Columbia Unified Certification Program (DCUCP) (DBE Program joint with D.DOT)

These programs have structured contracting requirements to facilitate competition by small, minority- and women-owned business concerns, taking all reasonable steps to eliminate obstacles to their participation in procurements as prime contractors or subcontractors.

## FY24 Planned Contract Awards

### Equity through System Design

Metro defines an equitable transit system as one that provides an outcome where everyone can use the transit system to access the region’s opportunities and resources. Metro has created an equitable transit system by:

- Acknowledging that some populations, particularly those of color, low-income, and/or with disabilities, disproportionately experience injustice across many facets of life due to longstanding, structural challenges.
- Recognizing that the agency’s investments and operational decisions change lives and therefore committing to intentionally prioritizing equity when designing, implementing, and evaluating strategies, policies, practices, and investments.

Metro is actively working to improve equity in the DMV as a mobility provider and understands that it serves a diverse community of customers.
